ALPC Comment: Members understand any concerns over noise pollution will be covered by the application, however feel that a more aesthetic solution could be found for siting of the unit given the prominent location of the building in the village. ALPC Comment: Members note that the application looks to enclose existing structures and therefore feel that this does not affect the openness of the Greenbelt. They also note that one of the two buildings already has residential status, and whilst they do not object to the extension and change of use contained within the current apparent footprint. Members are concerned that if the scheme be approved, then potentially it could be subdivided in the future and members feel it would be prudent to protect such an approval with a condition.
